**FairGuidance**

The project’s aim is to integrate disadvantaged people into education, training and the labour market. This includes lower-skilled, long term unemployed, migrants, and others whose personal, economic, social, cultural, and linguistic circumstances act as barriers to their integration in learning and work opportunities and to active citizenship. Outcomes: Development of a handbook for more client-oriented guidance and counselling offers that consider diversity issues. The handbook will be used by staff in Vocational and Educational Training (VET), such as counsellors, advisors, trainers, consultants, and it will have an impact on their professional development and qualification. To achieve a better integration of
disadvantaged persons, more qualified counsellors in the field of VET are needed who will be aware of various kinds of disparities and sensitised and who are prepared for equity, diversity and inclusion challenges. **Outcomes:** Good practice online library; FairGuidance training course for counsellors and an e-learning platform. FairGuidance is labelled as a project in the priority area 9 „people & skills“ within the EU-Danube-strategy. **Partners:** Ministry of Education, Youth and Sports Baden-Württemberg, ttg team training GmbH, Tübingen (Coordinator), Diakonisches Werk Württemberg (Germany), AJOFM GALATI – Galati, AMFSS GALATI, AIDRom (Romania), University of Ruse Angel Kanchev, TO-Ruse (Bulgaria)
